Re: NERC FFT Informational Filing
FERC Docket No. RC12-11-000

On April 30, 2012, the North American Electric Reliability Corporation (NERC) submitted a Find Fix and Track Report (FFT) regarding possible violations, or remediated issues, for 18 Registered Entities. It has come to NERC's attention that the total number of remediated issues should be stated as 66, rather than 64. These 66 FFT remediated issues were submitted on 64 line items in Attachment A.

Accordingly, NERC respectfully requests that the record be corrected as noted above.

Respectfully submitted,

/s/ Rebecca J. Michael
