Re: NERC Spreadsheet Notice of Penalty
FERC Docket No. NP12-10-000

On December 30, 2011, the North American Electric Reliability Corporation (NERC) submitted a Spreadsheet Notice of Penalty regarding violations for 21 Registered Entities. It has come to NERC's attention that the violation ID number listed in column N, rows 7 through 18, of the referenced spreadsheet should be SPP201000400 rather than violation ID number SPP201000340. The violation ID number SPP201000340 was associated with a previously filed Notice of Penalty for a different Unidentified Registered Entity.

Accordingly, NERC respectfully requests that the record be corrected as noted above.

Respectfully submitted,

/s/ Rebecca J. Michael
