Ms. Kimberly Bose  
Secretary  
Federal Energy Regulatory Commission  
888 First Street, N.E.  
Washington, D.C. 20426

**Re: NERC Notice of Penalty,  
FERC Docket No. NP10-\_-000**

Dear Ms. Bose:

The North American Electric Reliability Corporation (NERC) hereby provides this Notice of Penalty,<sup>1</sup> which includes one (1) Non-Public Exhibit pertaining to a NERC Registered Entity. The Notice of Penalty set forth in the Non-Public Exhibit contains, in whole or in part, violations of the CIP-002 through CIP-009 Reliability Standards that were resolved by Settlement Agreement. The Registered Entity does not dispute the violation and the penalty. This filing is submitted in accordance with the Federal Energy Regulatory Commission's (Commission or FERC) rules, regulations and orders, as well as NERC Rules of Procedure including Appendix 4C (NERC Compliance Monitoring and Enforcement Program (CMEP)).<sup>2</sup>

The Non-Public Exhibit identifies the Reliability Standards at issue, the basis for the violation and the impact to reliability, and the ultimate disposition. A summary is set forth below:

---

<sup>1</sup> *Rules Concerning Certification of the Electric Reliability Organization; and Procedures for the Establishment, Approval, and Enforcement of Electric Reliability Standards* (Order No. 672), III FERC Stats. & Regs. ¶ 31,204 (2006); *Notice of New Docket Prefix "NP" for Notices of Penalty Filed by the North American Electric Reliability Corporation*, Docket No. RM05-30-000 (February 7, 2008). See also 18 C.F.R. Part 39 (2008). *Mandatory Reliability Standards for the Bulk-Power System*, FERC Stats. & Regs. ¶ 31,242 (2007) (Order No. 693), *reh'g denied*, 120 FERC ¶ 61,053 (2007) (Order No. 693-A). See 18 C.F.R. § 39.7(c)(2).

<sup>2</sup> See 18 C.F.R. § 39.7(c)(2).

NERC Violation ID*	Reliability Std.	Req. (R)	Approved VRF	Basis for Violation	Total Penalty (\$)
WECC200901701	CIP-005-1	2	Medium	<p>The Registered Entity's unrestricted firewall access on the first connection to the Electronic Security Perimeter did not follow an access control model that denied access by default. The Registered Entity's direct outside connection on the second connection was a failure to only enable ports within the Electronic Security Perimeter.</p> <p>The Registered Entity mitigated this violation by correcting: (i) the rule set on the firewall for the two outbound circuits at issue; and (ii) the cabling error that connected the Critical Cyber Asset servers to an outbound node. Actions taken included reconnecting these two circuits through a proper Electronic Security Perimeter border firewall and configuring the necessary firewall rule sets to appropriately restrict access.</p>	8,000

\*Due to the confidential nature of the CIP-002 through CIP-009 violations, the Registered Entity's name is not identified.

### Request for Confidential Treatment

Information in and certain attachments to the instant Notice of Penalty include privileged and confidential information as defined by the Commission's regulations at 18 C.F.R. Part 388 and orders, as well as NERC Rules of Procedure including the NERC CMEP Appendix 4C. Specifically, this includes non-public information related to certain Reliability Standard violations, certain Regional Entity investigative files, Registered Entity sensitive business and confidential information exempt from the mandatory public disclosure requirements of the Freedom of Information Act, 5 U.S.C. 552, and should be withheld from public disclosure.

In accordance with the Commission's Rules of Practice and Procedure, 18 C.F.R. § 388.112, a non-public version of the information redacted from the public filing is being provided under separate cover.

Because certain of the attached documents are deemed "confidential" by NERC, Registered Entities and Regional Entities, NERC requests that the confidential, non-public information be provided special treatment in accordance with the above regulation.

**Notices and Communications**

Notices and communications with respect to this filing may be addressed to the following:
