

Coordinated Functional Registration (CFR) Enhancement on the ERO Portal Notice

December 12, 2018

The CFR Enhancement on the ERO Portal is live!

The **Coordinated Functional Registration (CFR) Enhancement** for requirement parts is now ready for use by Registered Entities to create, submit and update Coordinated Functional Registrations (CFRs). This enhancement was identified in discussions with CFR participants and in a survey to registered entity CFR participants, regional staff, and NERC staff regarding level of effort to prepare, review, record, and publish CFRs.

To access this portal you must have access to the [ERO Portal \(Formerly NERC MyAccount\)](#).

Instructions for registering for the ERO Portal and CFR Portal are included in the “**CFR Portal User Guide**” and **Power Point** training presentation located on the [Organization Registration](#) page on [NERC.COM](#) under “**Reference Documents**”. A link to the CFR Portal is also located on the **Organization Registration** page under “**NERC Registration Tools**”.

- Additional training will be coordinated with registered entities over the next several weeks.
- A follow-up survey will be sent out on Friday, December 14, 2018 to CFR participants, regional staff and NERC staff.

For more information or assistance, please contact (**Regional Entity Contact Information**).
