

NERC Compliance Process Bulletin #2011-006

CIP Implementation Plan Table 3 Entities

Posted: October 19, 2011

Background

Process Bulletin #2011-006 has been issued to document that the “Implementation Plan for Newly Identified Critical Cyber Assets and Newly Registered Entities,” which can be found as a link on the NERC Web site under the CIP Standards, is the version in effect for use for entities that registered after 2007.

Clarification of Changes

Effective April 1, 2010, Table 4 of the Implementation Plan for Cyber Security Standards CIP-002-1 through CIP-009-1 became obsolete and is no longer in effect. It was superseded by the “Implementation Plan for Newly Identified Critical Cyber Assets and Newly Registered Entities,” and applies to Cyber Security Standards CIP-002-2 through CIP-009-2 and CIP-002-3 through CIP-009-3. It is available at the following link:

http://www.nerc.com/docs/standards/sar/Imp-Plan_Newly_Identified_CCA_RE_clean_last_approval_2009Nov19.pdf.

This document is designed to convey compliance guidance from NERC's various activities. It is not intended to establish new requirements under NERC's Reliability Standards or to modify the requirements in any existing NERC Reliability Standards. Compliance will continue to be determined based on language in the NERC Reliability Standards as they may be amended from time to time.
