Q3

Briefly describe the nominee's experience and qualifications to serve on the RSTC:

Eric Miller leads the information technology infrastructure, operations, and applications support teams for the MISO footprint. In his current role as Executive Director, Eric oversees and works with operations teams to ensure the reliability of the energy management systems (EMS), market, and planning systems. He also works with the strategy and development teams to determine system investments to support future reliability considering the changing weather patterns and generation resource mix. Eric currently serves on the ISO/RTO Council's Technology Working Group and was recently accepted to participate on the Cyber Security Panel for FERC's Reliability Technical Conference to discuss managing cyber security threats, the CIP Reliability Standards, and best practices for the Bulk-Power System. Accordingly, he has a wide range of experience, familiarity, and expertise concerning ISO security issues, NERC CIP Reliability Standards, and the standards development process.

Prior to joining MISO, Eric held mission critical technology and cybersecurity leadership roles at Ascension Health, Indiana Health Information Exchange, St. Vincent Health, Computer Sciences Corporation, and as a Commissioned Officer in the U.S. Army. As an open-source software author he has led globally used projects focused on network optimization and management. Eric also served on the Board of Examiners for the Malcolm Baldrige National Quality Award. He has a bachelor's degree in business administration and Masters' degrees in Business Administration and Systems Engineering.

Eric also holds multiple cybersecurity certifications including being a Certified Cloud Security Professional (CCSP) and Certified Information Systems Security Professional (CISSP) with advanced specialties in architecture as an Information Systems Security Architecture Professional (CISSP-ISSAP) and engineering as an Information Systems Security Engineering Professional (CISSP-ISSEP).
