MIDAS Application Update

October 27, 2022

MIDAS Application Update – 10/27/2022	
Enhancement	**Description**
Region Dropdowns – All manual entry screens in MIDAS Portal – enforce regional associations	• The Region dropdown now reflects ONLY the Regions the selected entity is associated with. This applies to the: ▪ Manual Misoperations entry form ▪ Protection System operations entry form ▪ Opt Out entry form
Bulk Submissions – Enforce regional association	• When a bulk submission is created with the spreadsheet template, the system checks to ensure the entity is associated with the Region selected in the Region dropdown. This applies to misoperations and protection operation counts.
Misoperation Rate Report – Correct calculation	• Corrected the rate calculation on this report
Submission Status Report – corrected logic and added statuses	• Corrected various business logic flaws in the report and added new statuses. • For a current or future period, the 'Status' column will now display 'Current/Future Period' • If an entity is missing the Section 1600 reporting confirmation for the year, the 'Status' column will display 'Missing Section 1600 Reporting Confirmation for period' regardless of the submission status of Misops and PS Ops • If an entity submits a misoperation for a quarter, but does not submit PS Ops, the 'Status' column will display 'Invalid Combination, every Misoperation must have at least one or more PSOp'

MIDAS Application Update – 10/27/2022	
Enhancement	**Description**
	• If an entity submits an invalid combination of Opt Outs and submissions, the 'Status' column will display 'Invalid Combination'. See the table at the end of the document for a complete list of invalid combinations.
Reminder Emails – Correct distribution	• Reminder email logic was corrected to match business requirements and align with the submission status report
Opt Outs for same entity - different regions	• Corrected an issue where users could not submit an opt out for an entity in an additional region if an Opt out had previously been submitted for the same entity in a different region

PSOP		Misop		Status
Sub	OO	Sub	OO	
No	No	No	No	Missing Submission
No	No	No	Yes	Missing Submission
No	No	Yes	No	Missing Submission
No	No	Yes	Yes	Invalid Combination
No	Yes	No	No	Missing Submission
No	Yes	No	Yes	Opted Out
No	Yes	Yes	No	Invalid Combination, every Misoperation must have at least one or more PSOp.
No	Yes	Yes	Yes	Invalid Combination
Yes	No	No	No	Missing Submission
Yes	No	No	Yes	Complete
Yes	No	Yes	No	Complete
Yes	No	Yes	Yes	Invalid Combination
Yes	Yes	No	No	Invalid Combination
Yes	Yes	No	Yes	Invalid Combination
Yes	Yes	Yes	No	Invalid Combination
Yes	Yes	Yes	Yes	Invalid Combination
