

## Meeting Notes

# Project 2020-02 Modifications to PRC-024 (Generator Ride-through) Drafting Team

December 18, 2023 | 11:00 a.m. - 1:00 p.m. Eastern

Conference Call with Web Access

### Administrative

**1. Review NERC Antitrust Compliance Guidelines and Public Announcement**

**2. Determination of Quorum**

The rule for NERC Standard Drafting Team (SDT) states that a quorum requires two-thirds of the voting members of the SDT to be physically present. Quorum was met. See table below for meeting attendance.

**3. Introductions and Chair's Remarks**

### Agenda Items

**1. Finalize questions for informal comment period and technical rationale**

**2. Review current timeline**

**3. Review sub-team assignments for draft**

**4. Discuss next steps, timeline, and future meetings**

**5. Adjourn**

J. Calderon initiated the meeting, called roll, and reviewed the NERC Antitrust Guidelines and Participant Policy.

The team discussed R11 and R8. For R11, there were some modifications to the requirement language regarding when an acceptable usage of current blocking could occur. The team discussed the expectations set within IEEE 2800 and some observers shared their concerns on differences between that document and the NERC Reliability Standard draft. X. Wang highlighted that the FERC Order 901 does not provide the same expectation regarding a permissive region (POI voltage @ <0.1p.u.) with an acceptable usage of the IBR entering current block mode.

The team then discussed R8 and where some other requirements may make sense to bring in. Some team members expressed apprehension regarding the current number of requirements. There are some compliance concerns with having so many. J. Calderon discussed presenting a strawman consolidated version for the team's consideration.
