

## **ATCTDT May 2, 2006 Meeting Notes:**

The drafting team held a conference call to review redlined changes to MOD-001-1. The team reviewed the MOD-001-1 and MOD-004-1, MOD-005-1, MOD-008-1, and MOD-009-1 standards. Bill Blevins inserted the proposed modifications to the MOD-004 through MOD-009 standards as proposed by the LTATF and the SAR drafting team and the drafting team reviewed the marked up versions. Bill Blevins proposed the drafting team post the ATC/TTC standards and the team accept the proposed changes from the SAR drafting team for MOD-004 through MOD-009 for posting. The drafting team did not wish to accept the modifications from the SAR drafting team and post them for industry comment without having reviewed the changes and discussed them individually.

The team discussed the issues of the separate TTC and ATC sections. Some members felt that the differences between the methods used in the East and the West were making it difficult to agree on requirements. The team did not draft changes to the MOD-001 standard. The team reviewed comments on the drafted sections and determined that there needs to be questions on whether a regional difference is needed for ISO-NE.

Larry Middleton and Dennis Kim were assigned to develop a comment form for the next meeting that the team could review. Bill Blevins will send out a follow up note to solicit input from the WECC members on the and from Cheryl Mendrala for the Regional Difference question to be included in the comment form.

Scheduled a WeBex for the ATCTDT May 10, 2006.
