Standards Announcement

Ballot Pool and Pre-ballot Window

March 9–April 7, 2009

Now available at: <https://standards.nerc.net/BallotPool.aspx>

Interpretation of PRC-005-1 for the Compliance Monitoring Processes Working Group (Project 2009-10)

An interpretation of PRC-005-1 — Transmission and Generation Protection System Maintenance and Testing Requirement R1 for the Compliance Monitoring Processes Working Group is posted for a 30-day pre-ballot review. Registered Ballot Body members may join the ballot pool to be eligible to vote on this interpretation **until 8 a.m. EDT on April 7, 2009**.

During the pre-ballot window, members of the ballot pool may communicate with one another by using their “ballot pool list server.” (Once the balloting begins, ballot pool members are prohibited from using the ballot pool list servers.) The list server for this ballot pool is:

Project Background

The Compliance Monitoring Processes Working Group is seeking clarification on aspects of the maintenance and testing program required for Protection Systems in Requirement R1. The request includes questions about battery chargers, relays, sensing devices, circuitry, and communication systems.

The request and interpretation can be found on the project page:

<http://www.nerc.com/filez/standards/Project2009-10 Interpretation PRC-005-1 CMPWG.html>

Standards Development Process

The [Reliability Standards Development Procedure](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
