

## Standards Announcement

Ballot Pool and Pre-ballot Window January 11-February 10, 2010

Now available at: https://standards.nerc.net/BallotPool.aspx

Project 2009-27: Interpretation of TOP-002-2a for the Florida Municipal Power Pool (FMPP) An interpretation of standard TOP-002-2a — Normal Operations Planning, Requirement R10, for FMPP is posted for a 30-day pre-ballot review. Registered Ballot Body members may join the ballot pool to be eligible to vote on this interpretation until 8 a.m. EST on February 10, 2010.

During the pre-ballot window, members of the ballot pool may communicate with one another by using their "ballot pool list server." (Once the balloting begins, ballot pool members are prohibited from using the ballot pool list servers.) The list server for this ballot pool is: bp-2009-27\_RFI\_FMPP\_in@nerc.com.

## **Next Steps**

Voting will begin shortly after the pre-ballot review closes.

## **Project Background**

FMPP is seeking clarification as to whether Requirement R10 requires the Balancing Authority to plan to maintain load-interchange-generation balance under the direction of the Transmission Operators for meeting all System Operating Limits (SOLs) and Interconnection Reliability Operating Limits (IROLs).

The request and interpretation can be found on the project page: <a href="http://www.nerc.com/filez/standards/Project2009-27\_TOP-002-2a\_R10\_RFI\_FMPP.html">http://www.nerc.com/filez/standards/Project2009-27\_TOP-002-2a\_R10\_RFI\_FMPP.html</a>

## **Standards Development Process**

The <u>Reliability Standards Development Procedure</u> contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
