

Standards Announcement

Project 2010-13.2 Phase 2 of Relay Loadability: Generation PRC-025-1

Successive Ballot and Non-binding Poll Results

Now Available

A successive ballot of **PRC-025-1** – Generator Relay Loadability and a non-binding poll of the associated Violation Risk Factors (VRFs) and Violation Severity Levels (VSLs) concluded at **8 p.m. Eastern on Friday, May 24, 2013**.

Voting statistics are listed below, and the <u>Ballot Results</u> page provides a link to the detailed results for the successive ballot.

Approval	Non-binding Poll Results
Quorum: 81.25%	Quorum: 80.17%
Approval: 69.23%	Supportive Opinions: 61.11%

Background information for this project can be found on the <u>project page</u>.

Next Steps

The drafting team will consider all comments received during the formal comment period and, if needed, make revisions to the standard. If the comments do not show the need for significant revisions, the standard will proceed to a recirculation ballot.

Standards Development Process

The <u>Standard Processes Manual</u> contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.
