

Standards Announcement

Project 2013-01 Cold Weather Preparedness Standard Drafting Team – Nomination Period Open

September 24 – October 8, 2012

The Standards Committee has authorized the posting of a Standard Authorization Request (SAR) for industry comment, and nominations are being accepted for a drafting team to refine the SAR in response to industry comments. According to the NERC Standard Processes Manual, if the Standards Committee appoints a drafting team to refine the SAR, the same drafting team shall work to develop the associated standard if the project is moved forward.

We are seeking candidates with experience in generation operations with seasonal equipment preparation, or other related emergency operations planning.

If you are interested in serving on this drafting team, please complete this [nomination form](#) **by October 8, 2012**.

Further details are included on the Project 2013-01 project page:

Standards Process

The [Standard Processes Manual](#) contains all the procedures governing the standards development process. The success of the NERC standards development process depends on stakeholder participation. We extend our thanks to all those who participate.

For more information or assistance, please contact [Howard Gugel](#) (via email) or at (609) 651-2269.
