

**UPDATED**

# Standards Announcement

## Project 2023-01 EOP-004 IBR Event Reporting

**Informal Comment Period Open through March 27, 2024****Now Available**

A 45-day informal comment period for draft two of **EOP-004-5 – Event Reporting**, is open through **8 p.m. Eastern, Wednesday, March 27, 2024**.

**Update**

The proposed definition for Inverter-Based Resource (IBR) was posted for additional ballot on February 22, 2024. This affects the threshold criteria in IBR Event Reporting within EOP-004. The proposed definition is as follows:

**Inverter-Based Resource (IBR):** A plant/facility that is connected to the electric system, consisting of one or more IBR Unit(s) operated as a single resource at a common point of interconnection. IBRs include, but are not limited to, solar photovoltaic (PV), Type 3 and Type 4 wind, battery energy storage system (BESS), and fuel cell.

The standard drafting team's considerations of the responses received from the previous comment period are reflected in this draft of the standard.

**Reminder Regarding Corporate RBB Memberships**

Under the NERC Rules of Procedure, each entity and its affiliates are collectively permitted one voting membership per Registered Ballot Body Segment. Each entity that undergoes a change in corporate structure (such as a merger or acquisition) that results in the entity or affiliated entities having more than the one permitted representative in a particular Segment must withdraw the duplicate membership(s) prior to joining new ballot pools or voting on anything as part of an existing ballot pool. Contact [ballotadmin@nerc.net](mailto:ballotadmin@nerc.net) to assist with the removal of any duplicate registrations.

**Commenting**

Use the [Standards Balloting and Commenting System \(SBS\)](#) to submit comments. An unofficial Word version of the comment form is posted on the [project page](#).

- Contact NERC IT support directly at <https://support.nerc.net/> (Monday – Friday, 8 a.m. - 5 p.m. Eastern) for problems regarding accessing the SBS due to a forgotten password, incorrect credential error messages, or system lock-out.
- Passwords expire every **6 months** and must be reset.
- The SBS is **not** supported for use on mobile devices.

- *Please be mindful of ballot and comment period closing dates. We ask to **allow at least 48 hours** for NERC support staff to assist with inquiries. Therefore, it is recommended that users try logging into their SBS accounts **prior to the last day** of a comment/ballot period.*

### **Next Steps**

The drafting team will hold a meeting in April 2024 to review industry comments from the informal comment period. Then the drafting team plans to conduct a formal comment and ballot period in early July 2024.

For information on the Standards Development Process, refer to the [Standard Processes Manual](#).

For more information or assistance, contact Senior Standards Developer, [Chris Larson](#) (via email) or at 404-446-9708.
