Standards Announcement
Project 2023-03 Internal Network Security Monitoring (INSM)

Nomination Period Open through May 5, 2023

Now Available

Nominations are being sought for **Project 2023-03 Internal Network Security Monitoring** Standard Authorization Request (SAR) drafting team members through **8 p.m. Eastern, Friday, May 5, 2023.**

Use the electronic form to submit a nomination. Contact Linda Jenkins regarding issues using the electronic form. An unofficial Word version of the nomination form is posted on the Standard Drafting Team Vacancies page and the project page.

By submitting a nomination form, you are indicating your willingness and agreement to actively participate in face-to-face meetings and conference calls.

The time commitment for this project is expected to be one to two face-to-face meetings per quarter (on average three full working days each meeting) with conference calls scheduled as needed to meet the agreed upon timeline the team sets forth. Team members may also have side projects, either individually or by sub-group, to present for discussion and review. Lastly, an important component of the drafting team effort is outreach. Members of the team will be expected to conduct industry outreach during the development process to support a successful ballot.

Previous drafting team experience is beneficial but not required. See the project page and nomination form for additional information.

Next Steps
The Standards Committee is expected to appoint members to the SAR drafting team in May 2023. Nominees will be notified shortly after they have been appointed.

For more information on the Standards Development Process, refer to the Standard Processes Manual.
